## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments, see Remarks, filed July 12, 2006, with respect to claims 1, 2, 5-8, 11-14, 17 and 18 have been fully considered and are persuasive. The rejections of these claims have been withdrawn.

### ***Allowable Subject Matter***

Claims 1, 2, 5-8, 11-14, 17 and 18 are allowed.

The following is an examiner's statement of reasons for allowance: claims 1, 7, and 13 of the current application teaches similar subject matter as the prior art of Biegelsen et al. (US 6335084) and Ueda et al. (US 5801722) and Meuiner et al. (US 6582138) However, claims 1, 7, and 13 are allowed for the reasons pointed out by the Applicant's remarks page 5 and 6, specifically citing Applicant's argument that Meuiner is conspicuously absent on any teaching or suggestion that the two markings (face and edge) are read by a machine that views the two markings as alternative means to the same information.

It follows that dependent claims 2, 5, 6, 8, 11, 12, 14, 17 and 18 are inherently allowable for depending on an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Hanies et al. references US 6985682 and US 7102798, as well as the Haines reference US 20030072922 are cited for teaching sensing a media parameter on a sheet and configuring the printer.
